

RISHABH GOUR

Frontend React Developer

+91 6260116100 | rishabhgour157@gmail.com | rishabhgour.com | linkdedin.com/rishabh157

PROFILE SUMMARY

I'm a **React Developer** with 3 years of experience, specializing in frontend development using React.js, Next.js, TypeScript, and Tailwind CSS. With strong expertise in UI/UX design, component-driven architecture, and API integration, I deliver scalable, high-performance applications. Currently focused on Frontend excellence while expanding toward AI-driven interfaces and intelligent web.

WORK EXPERIENCE

Provista Solution PVT LTD | REACT Developer

Nov 2024 - Present, Indore, India

- Served as Product Designer and React Developer at a biotech company, translating client requirements into intuitive product interfaces with a strong focus on user experience (UX) and UI design.
- Led end-to-end development of SAPTEL ERP for a product-based company with in-house Telemarketing teams, managing the full order lifecycle from punching to delivery and post-delivery tracking. Also built a sports club CRM platform for handling user subscriptions, coupons, and membership management.

Codiotic Technologies PVT LTD | MEARN Stack Developer

Nov 2022 - Oct 2024, Indore, India

- Built scalable E-commerce and CRM apps using React.js, Next.js, and React Native with focus on performance and reusability.
- Built a JIRA-like tool and internal chat app using React Native and Python Flask FastAPI.

PROJECTS

MITOLAB | Next.js, ShadCN, Tailwind CSS, Python FastAPI, PostgreSQL

- Designed a user-friendly biotech data analysis platform by translating client requirements into intuitive UI/UX.
- Built interactive UI components and data visualizations (charts, selectors) for biotech formula-based calculations.
- Collaborated on frontend development to ensure accurate implementation of industry-standard biotech formulas.

SAPTEL | React.js, Redux Toolkit, Tailwind, Node.js, MongoDB

- Built a scalable ERP platform for a Telemarketing company with 700+ sales agents handling 15K+ daily orders.
- Designed and developed a dynamic barcode generation system supporting multiple series and patterns.
- Integrated courier APIs and developed auto-mapping logic to assign orders by dealer pin-code or fallback courier.
- Developed an agent-friendly sales page with clean UI and auto-fetching of existing customer data for efficient order entry.

Smart Learning Destination | EdTech Platform | Next.js, Node.js, Tailwind

- Increased React.js test coverage by 12% using Cypress, component-level testing, enhancing reliability and maintainability.
- API integration, and filter-based course discovery, improving UX for CA/CS/CMA students on web and mobile platforms.
- Integrated a secure payment gateway, boosting successful transactions by 40%, along with cart and wishlist functionality for better user engagement.

City Bazar Online | E-Commerce Platform | Next.js, Redux, RTK, Tailwind CSS

- Built a scalable multi-vendor e-commerce platform enabling 500+ shopkeepers to sell directly to 3–4 lakh active users, using reusable components and modular architecture.
- Improved SEO and performance using SSR and meta tag optimization, resulting in a 60% boost in organic traffic.
- Implemented secure JWT-based authentication with role-based access control (RBAC) and developed a high-performance seller dashboard featuring debounced search, infinite scroll, dynamic filtering, lazy loading, and real-time data updates via Redux Toolkit.

SKILLS

- **Frontend:** JavaScript (ES6+), TypeScript, ReactJS, NextJS, React Native, Remix, Vite, Tailwind CSS, Bootstrap, Redux Toolkit, CSS3, HTML5, Responsive Design, Component-Driven Development, Figma, Storybook, SSR
- **Testing & Tools:** Cypress, Jest, Git, GitHub, Agile, Scrum.
- **Soft Skills:** Teamwork, Problem Solving, Time Management, Leadership.
- **Others:** Node.js, Express.js, MongoDB, RESTful APIs, Authentication & Authorization, API Integration, Python, Agile & Scrum Methodologies, Git, Storybook, Cypress, Python.

CERTIFICATIONS

- Havard University: [Computer Science 50x](#)
- Atlassian university: [Agile with Atlassian Jira](#)
- Infosys Springboard: [ReactJS](#) [JavaScript Specialist Certification](#)
